

Viranga's Journey in

MASTER OF SOFTWARE ENGINEERING

STUDENT SUCCESS STORY

1 Can you introduce yourself?

"Hi, my name is Viranga. I am studying for a Master's in Software Engineering at Yoobee College in Auckland, and I'm from Sri Lanka."

2 What is your academic and professional background?

"I completed my advanced diploma and diploma in IT, focusing on programming languages like Clipper, Visual Basic, and SQL. After that, I spent over 18 years in the IT sector, specialising in database development and programming. I also managed projects and transitioned into freelancing in 2018. While freelancing, I worked on a project with a New Zealand IT company, which gave me the chance to visit New Zealand in 2023 on a visitor visa."

3 Why did you choose Yoobee to study MSE programme?

“

During my visit to New Zealand, I became really interested in the tech sector here. After researching several institutions, I chose Yoobee College because the syllabus covers a lot in just one year and is very affordable. It felt like the best choice for me to pursue my Master's.

"The lecturers simplify complex topics, even though English isn't my first language."

4 What differences have you noticed between studying in New Zealand and your home country?

"The curriculum at Yoobee is very focused on cutting-edge technologies like Python, quantum computing, data analytics, and cybersecurity, which are vital for the future. The lecturers simplify complex topics, even though English isn't my first language. It's a very supportive learning environment."

5 What challenges have you faced while studying in New Zealand?

"Language was a bit of a challenge initially, but the lecturers made it easy to grasp the course content. Adapting to the environment and balancing my studies has been smooth, thanks to support from staff and classmates."

6 What are your future plans after completing your Master's degree?

"My goal is to apply for a post-study work visa and eventually resident visa. The course gives valuable points towards residency, and with a year of work experience, I believe achieving residency will be more straightforward."

7 How would you describe your overall experience in New Zealand?

"New Zealand offers a lot of opportunities in IT, from programming to database administration and quantum computing. I'm really enjoying the Master's programme and looking forward to applying what I've learned. The lectures and content are top-tier, and the experience has been great."
